**BE CAREFUL  
WITH  
FIREPLACES AND HEATERS**

Have your fireplace chimney and flues inspected every year and clean them if needed. Keep portable space heaters at least 3 feet from anything that can burn, including bedding, furniture, and clothing, and never drape clothing over a space heater to dry. The risk of CO poisoning increases during the winter, as more people run furnaces and space heaters and use fireplaces. Install a carbon monoxide alarm near bedrooms and on each floor of your home.

- October 10**    *Polenta and Stew Dinner*
- November 27,28** *Christmas Crafts Faire*

**EMERGENCY ONLY CELL PHONE NUMBER**

If you can only use a cell phone to report an emergency the following number is better to use than 911 ----- (707) 576-1371.

**Never too late** to become a member of Bodega Volunteer Fire Department or to make a donaton to the new building which will hopefully see ground-breaking in the next few months. Use the forms inside to join with the many others who have contributed time, money and labor to bring us to this point in making the new Fire House a reality.

Vickie Watts has recently completed a Community Emergency Response Team (CERT) class offered by FEMA. It offers hands-on training in skills such as how to properly use a fire extinguisher, and lots of practical info for a layperson's response to an emergency. She highly recommends it to everyone in the community. If there's enough interest we will hold another CERT class here in Bodega during the coming year. Please call Vickie (876 3385) or Ron (874 1217) for more details and sign up.
